PRODD▶ Austrian data still not a part of CompNet

■ Application for data access in preparation:

- CompNet preparing the application for Austrian Micro Data Center – status to be discussed
- NPB office now available to help
- Alternative data source: BACH – NPB looks into what is possible

■ Planned use of the data:

- CompNet data: adding Austria to the set of countries analyzed by NPBs, CompNet reports, ...
- MDI: firm-level analysis – energy, competitiveness, business dynamism, reallocation

■ More information needed:

- Status of Austria & TSI
